

Torque Specifications Product Announcement

Torque Specifications:

20 mm – 50 mm *Min 3 ft-lbs to Max 4 ft-lbs

63 mm – 200 mm Min 7 ft-lbs to Max 20 ft-lbs

*You risk stripping the bolt if torqued ≥ 5 ft-lbs

- Minimal force is required to meet torque specifications.
- It is perfectly acceptable for a small gap to remain between the clamshell halves after assembly.

Thank you,
